WATER POWER, with or without FACTO-BIES, for SALH and to LPT, at Matteawan, N. Y., 24 hours from New-York. Inquire at No. 6? Courtlandt-st., or to 6. S. SCHENCE, egeqt, Masteawan, N. Y.

FARMING LANDS.
IN TRACTS OF FORTY ACRES AND UPWARD,
On
LONG CREDITS
And at
LOW RATES OF INTEREST.
These Lands were granted by the Government to ald in the
construction of this Railroad, and include some of the richest
and most fortile Prairies in the State, interspersed here and
there with magnificent groves of out and other timber. The
south, and from themee to Galena and Dundelth, in the morthwest extreme of the State, and as all the lands he within infocen
miles on each side of this Road, ready and cheep nexts are
storded by it for transporting the products of the lands to marlets. Moreover, the rapid growth of flourishing towns and vilages along the line, and the great increase in products of the
migration, &c., afford a substantial and growing home demand
or is an produce.
The soil is a dark, rich moid, from one to five feet in depth, is

made for breaking, ready for Corn or Wheat, at from \$210 \$2 50 per acre. By judicious management the land may be plowed and fenced the first, and under a high state of cultivation the second year.

Corn, Grain, Cattle, &c., will be forwarded at reasonable rate to Chicago for the Eastern market and to Cairo for the Southern. The larger yield on the cheap lands of litinois over the high-priced land in the Eastern market and to Cairo for the beaution more than sufficient to pay the difference of transportation to the Eastern market.

Bituminous Coal is minch at several points along the Road, and is a cheap and desirable fuel. It can be delivered at several points along the Road at \$1.50 to \$4 per tun. Wood can be issi at the same rates per cord.

Those who think of settling in lows or Minnesots, should bear in mind that lands there of any value, along the water-courses and for many ionies inland, have been disposed of that for those locaved in the injector there are no convenience for transporting the produce to market, railroads not having been introduced there; that to send the produce of these lands one or two hundred miles by wagon to market would cost much more than the expense of cultivating them, and hence Government lands thus situated, at \$1.20 per acre, are not so good investments as the land of this Company at the prices fixed.

The same remarks hold good in relation to the lands in Kansas and Nebranks, for although vacant lands may be found nearer the water courses, the distance to market is far greater, and every hundred miles the produce of these lands is carried either in wagons, or interrupted water communications, increases the expenses of transportation, which must be borne by the settlers in the reduced prices of their products; and to that extent precisely are the incomes from their farms, and of course on their investments, annually and every wont of the facilities furnished by this Road, and others with which it company, and their consequent tyleid over those of the Eastern and Middle States,

of contract, and the others annually thereafter. The last payment will become due at the end of the sixth year from the date of the contract.

INTEREST WILL BE CHARGED AT ONLY THREE PER CENT PER ANNUA.

As a security to the performance of the contract, the first two years' interest must be paid in advance, and it must be understood that at least one-tenth of the land purchased shall yearly be brought under cultivation. Douger credit; at 6 per cent per annum, may be neartisted by special application. Twenty per cent from the credit price will be deducted for assal. The Company's construction bonds will be received as eash.

Ready-framed Farm Buildings, which can be set up in a few days, can be obtained from responsible persons.

They will be 12 feet by 25 feet, divided into one living and three bedrooms, and will cost complete, set up on ground chosen any where along the road, ±150 in cash, exclusive of transportation. Larger buildings may be contracted for at proportionate rates. The Company will forward all the materials for such buildings over their road promptly.

Special arrangements with dealers can be made to supply those purchasing the Company's lands with fencing materials, agricultural tools, and outil of provisions in any quantity at the lowest wholesale prices.

It is believed that the price, long credit, and low rate of interest charged for these lands, will enable a man with a few hundered dollars in cash and ordinary industry to make himself independent before all the purchase money becomes due. In the mean time, the rapid settlement of the country will probably have increased their value four or five fold. When required, an experienced person will accompany applicants to give information and aid in selecting lands.

Circulus containing numerous instances of successful farming, signed by respectable and well-known farmers living in the brighterhood of the Railroad lands throughout the State—also the cost of feucing, price of cattle, expense of harvesting, thrashing, etc., by contract—or any other

P. SALE — 450,000 FIRST MORTGAGE
EIGHT PER CENT CONVERTIBLE SINKING FUND
BONDS of the DUBUQUE and PACIFIC RAILROAD COMPANY.

BONDS of the DUBUQUE and PACIFIC RAILROAD COM-PANY.

The Road is situated in the State of Iowa, and extends from Dubuque (the western termination of the Galena and Chicago Railread on the Mississippi River) in a due west course through Independence, Cedar Falls and Forr Dodge, to the Missouri River, at the mouth of the Big Sioux River.

These Bonds are issued upon a basis of more than \$1,200,000; are dated April 1, 1856; are payable in 20 years; their interest coupons are payable semi-annually, in April and October, and they are secured by a deed of trust of the Road, equipment, stock and tranchise of the first division of the line.

The Railroad Company is the recipient of 1,324,000 acres of lands of the most productive and inviting character.

The convertible privilege is therefore of great value, and the rearonsibility of the Company is unquestionable.

We recommend these Bonds to our friends as a first-class security.

Company to the order of the undersigned by whom
